Greetings.

It is appropriate at this time that all energies come together in a manifestation of awareness. For at this time, a new beginning is starting for each of you here. Within the Fetzer Foundation a new start has come forth, a new level of awareness of purpose has come into being, and a direction has been taken that will bring about a fulfillment for the purpose we have directed. Within Coptic order, a new line, a new direction has been laid, and steps have been taken to bring those into fruition. So it is time now, in the new beginning for both organizations and the two individuals involved within the new direction that you come together and find the oneness of purpose, the balance, the harmony between the souls. In balance comes unity, and through unity comes fulfillment. It is the fulfillment of the soul that seeks expression. The expression is through each of you. So each of you must go forth and fulfill for the soul to find fulfillment and to express the divine nature of God within. This is the drive, this is the motivation, and that is the direction to have.

Up until now, each of you have gone forth blindly, not knowing where the direction came from, nor ever knowing for sure where it was leading, but ever the drive was there. You followed it and it has come to this point, to this day, to this hour so that the knowledge now can begin. If you had swayed from the path at one time or another, it does not matter. For what matters now is that you have come together in service and in harmony. And through the understanding of why you are shall come yet a greater purpose, a greater light, and a greater fulfillment of the soul. For remember this, you are not here just to fulfill for yourself or for society or for the world. You are here to fulfill for the soul. In this case, it had to come out in physical embodiment in more than one embodiment in order to fulfill all of its needs. If it had come down in more than one body it could never have done all the things that are being accomplished as it is in the four. And through this expression, a completion is taking place at the soul level and through the completion the soul is finding a way to liberate itself. The soul truly is already liberated but its desire to help has kept it in bondage to the physical universe for a long time. It is now time to fulfill so that the bondage

no longer is. This is the purpose of the four coming together, in knowledge, in understanding, and in being. For it is at these three levels that fulfillment come about. The knowledge of why you are, the understanding of what you have to do, and learning to be within the essence of God within each of you that is ultimately one in the soul. So the coming together today of the four points - the four bodies - of Lynne, and John, of Nancy and John, form the four points upon the base of the pyramid in the physical plane and as the union of oneness raises upward in the higher planes of the physical universe, eventually the apex is reached, the capstone is placed on, the pyramid is formed and the soul finds itself once again in God. And liberation is achieved for all time.

This is the purpose of the coming together and this is the purpose of the soul's splitting apart into four embodiments. Dwell upon this, understand it and utilize it for the higher good of all. You have never entered anything with ego, you have always moved forward never knowing for sure why you had to go forth, why you had to do the things you have done, but you have always done them with clarity of love and understanding that somehow the soul was motivating you forward. Now it is time for the understanding to come. Be at peace in that understanding, and through that peace the greater love shall come forth from the soul.

We bring you a blessing from on high, from the highest levels of spirit to the levels of the physical planes - know that a link of light, know that a passageway to union has been made available. And as you begin to look upward into the passageway, know that we are ever-helping you in that light, ever-serving you in that light as you are serving us.

Until we meet again, the light of God be with you, the joy of God be with you. Be in love, be in peace, be in union.
